EDUCATION

Lahore Garrison University – BSc. Computer Science – CGPA – 3.26

2024-2028(expected)

FG Degree College Lahore Cantt – FSc. Pre-Engineering

2022-2024

FG Abid Majeed High School – Matric

2020-2022

PROFESSIONAL EXPERIENCES

NextStac – *Ful Stack Mern Developer*

2023-2025

- Built modern, scalable, and high-performance web applications using the MERN stack and Next.js.
- Developed responsive, user-friendly front-end interfaces with React.js, Next.js, and Tailwind CSS.
- Designed and implemented secure, efficient back-end services using Node.js and Express.js.
- Worked with MongoDB and Supabase to design database schemas and manage application data.
- Developed and consumed RESTful APIs, including authentication and authorization systems.
- Created dashboards, admin panels, and business-driven features aligned with client requirements.
- Collaborated with cross-functional teams to convert functional requirements into reliable technical solutions.
- Deployed and maintained applications on Vercel, ensuring performance, scalability, and stability.
- Focused on clean code practices, performance optimization, and high-quality delivery.

NextStac – *Mern Stack Developer Intern*

2023-2023

- Assisted in building real-world web applications using the MERN stack and Next.js.
- Developed responsive front-end components with React.js and supported UI optimization.
- Contributed to back-end development using Node.js and Express.js, including RESTful API integration.
- Worked with MongoDB for data management and learned authentication and performance best practices.
- Collaborated with senior developers on feature development, bug fixes, code reviews, and deployments on Vercel.

EXTRACURRICULARS

Hobbies:

- Singing, Sketching.

Certifications

- **5-Day Bootcamp on Node.js: RESTful API Development** — DevTown

PROJECTS

AI Powered Resume and Portfolio Builder (Full Stack)

- Built a web application for creating resumes and portfolio websites with AI-based suggestions.
- Developed frontend with React and backend APIs using Node.js, Express, and MongoDB.

Modern Digital Agency Website (Frontend)

- Created a responsive agency website using React, Tailwind CSS, and Vite.
- Implemented animations and layouts focused on clarity and device compatibility.

NextStac ERP System (Full Stack / Enterprise Application)

- Worked on an ERP system with HR, inventory, sales, and finance modules.
- Connected frontend components with backend APIs using the MERN stack.

Forever E-Commerce Platform (Full Stack)

- Developed a MERN-based e-commerce platform with product and order management.
- Built an admin dashboard for managing users, products, and orders.

Spotify Clone (Frontend + API Integration)

- Built a music streaming interface with playlists and playback features.
- Integrated the Spotify API to fetch and display music data dynamically.

Skills

frontend: HTML, CSS, JavaScript, React.js, Next.js, Gsap, Shadcn, Framer motion, Tailwind CSS.

backend: Node.js, Express.js, Rest APIs, Authentication, Postman, Thunder client.

Database: MySQL, PostgreSQL, Supabase, MongoDB.

Other: Git/GitHub, C++, n8n, Chatbots, AI, AI Agents
